Product Line 2026

MK 5 – new circuit – better capacitors – fine tuning

RG 1 MK 5 Stereo power amplifier class AIB, 2 x 130 W sinus at 8 Ohm. Dual mono, damping factor 800, frequency range 2 - 400.000 Hz. Massive steel chassis, finish chrome or aluminium silveror black, WBT binding posts and inputs. Dimensions: 450 x 150 x 200 mm. Our traditional product. Often attempted to copy, but never achieved by competitors. Likes criticalloudspeaker impedances. (Chrom 10.400 €) **9.500 €**

RG 2 MK 5 Preamplifier, Phono MM/MC selectable, capacity- and impedance matehing via plugs. Inputs: CD, Tuner, AUX, Tape. Outputs: Tape monitor and amplifier. Sophisticated circuitry: completely shielded power supply, filter and mu metal shielded 300 VA transformer. Massive front 10 mm black/silver chassis; engraved. Full metal knobs, frontplate 10 mm, massive. Remote included. (Option one pair XLR 900 €) **4.400 €**

RG 2 MK 5 **Reference Edition with turbo power supply inside 280.000 µF, dynamic expander, special selection and more Test Audio 2012 ... the power supply is a shock ... amazing sound ... (Chrome 8.800 €)** **8.000 €**

NEW **Reference Edition HD with one pair XLR and Super Mu-Metall Transformer** **10.000 €**

RG 3 MK 5 Preamplifier, Pure class A circuitry, 50.000 µF capacitance. External power supply, 3 W sinus at 8 Ohm output make it possible to run up to 300 feet of interconnect cable. Impedance below I Ohm, two pairs of outputs parallel. Frontplate I 0 mm, engraved. Finish chrome od black/silver. Completely modular circuitry with optional boards. Basic version: 2 x Aux, CD, Tuner, 2 x Tape. Record out switch, balance poti, 2 pairs of outputs. Dimensions: 450 x 80 x 260 mm. Little separate power supply, remote control. Option Monomodules phono MM or MC (**Pair 1.400 €**) with impedance and capacitance matching, optional Turbo power supply with 300 VA transformer, 140.000 µF and mains filter, in small black box. (**4.100 €**) Satisfies the highest demands on tonality, neutrality . WBT binding posts. An open and extended soundstage. In the small line of worlds absolute best pre- amplifiers. Pair symmetric In- or output module (**1.000 €**) **14.500 €**

Both next power supplies in seperate case with 10 mm Frontplates

Turbo Power supply reference with 280.000 µF, Specials, 2 x 300 VA mumetal transformator. **7.500 €**

NEW: **Version Reference Edition with two super Mumetal transformers and specials. A dream of soundstage.** **9.800 €**

RG 4 MK 5 Mono amplifier, class A/B 2 x 150 W sinus at 8 Ohm, 2 x 300 W sinus at 4 Ohm. Extremely stable below I ,5 Ohm load. Completely shielded transformer, 750 VA per channel. 240.000 µF. Extreme frequency range: 1,5 - 300.000 Hz. Delay and loudspeaker protection circuit. WBT's throughout. Finish Chrome --> chrome, engraved or aluminium silver/ black chassis. Dimensions: 450 x 150 x 200 mm. **17.200 €**

Truely - a world-class amplifier. Its sound has depth and clarity. Internationally demanded amplifier for demonstration and design purposes. STEREOPLAY: "Fastest impuls in amplifier design today." **15.500 €**

RG 5 MK 5 Floor standing two-way-loudspeaker. 24,5 cm Görlich aluminium bass driver, the fastest dynamic driver in the world. Modular crossover, WBT binding posts. Sensitivity: 91 dB, impedance 8 Ohms, weight: 85 lbs, height: I 00 cm. MDF enclosure with beautiful mother of pearl or coloured laquer finishes: handmade according to special order. Very exclusice design in performance, finish and technical quality. Renders a convincing impression of the first wave front. See picture at last side. **17.000 €**

RG 5 Reference Floorstanding, 20 cm Görlich bass driver with the genious air motion transformer. **A wonder of nature sound and vibrations, several months of detail work.** **32.000 €**

Belcanto MK 2 New step in evolution

Totally new construction, single handcrafted, two ways, wooden cabinet, color as you like.
Same fine acoustic but with much more power for big orchestral sound or as you like .
Ability to adjust the High Tweeter for every kind of room, with a new dimension of air motion transformer.
The soundstage is three-dimensional, you can touch the musician with your hands.
Dimensions L, W, H. : 120 cm, 30 cm, 50 cm, Weight 50 kg. **48.000 €**

Magazine LP 01/2015 ... a short audition at studio of master Rolf Gemein shows a fascinating soundstage with truly limitless dynamic capabilities from Belcanto MK 2 loudspeaker.

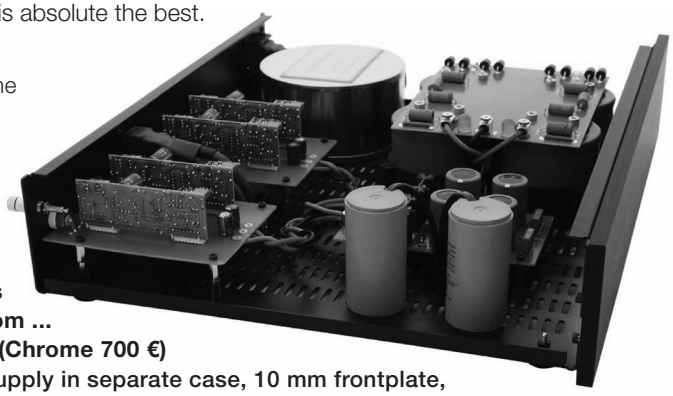
RG 6 "The turntable" Bearing made of widia/titan, bearing diameter: 16 mm. Theseparatemodules of the RG 6-network include: motor, bearing with 68 lbs audiobasis, stroboscope, mat, power line conditioner, marble plate, table basis. Plate 24 kg. massive alluminium. Any RAL colour laquer, all buttons 24-carat gold finishes. With this ultra precision piece you'll discover the sonic beauty and colourful variety of analogue recordings with complete relaxation. A masterpiece, built for eternity. Simply among the best and most beautiful turntable available. Incl. separate Class A power supply with 300 VA transformer, 140.000 µF. **38.000 €**

RG 6 Ref New drive unit and ultra-precice new bearing and other specials, with second passive drive unit **44.000 €**

Power Supply in separate case with 10 mm frontplate, 2 x 300 VA Mumetall transformer
This causes a perfect horizontal guided drive which is absolute the best. **6.000 €**

Phonostage NEW: All MK 4 with additional Class A Output Modules

Dimensions: 450 x 100 x 390 mm, black finish, front plate I 0 mm massive, black!silver, option chrome phono MM-MC, one or two Inputs, pure class A, very big power supply with 300 VA mumetal shielded transformer, 240.000 µF. Output power correct for your AUX input. Extraordinary soundstage and dynamic. Truly the best for your cartridge. **11.000 €**



Option second phono MM-MC input with modules **12.800 €**
Test Hifi Stars 3/2014 ... Frankyboy life in my room ... a big step for analog records ... amazing (Chrome 700 €)

Reference Edition **The absolute sounding phonostage with power supply in separate case, 10 mm frontplate, 2 x 300 VA Mumetal transformer, ca. 300.000 µF** **19.000 €**

	Add to louspeaker cable prices: complete bi-wiring termination set with integrated 30 cm high-frequency branch using a very special high-freuquency cable (4 pcs spades or bananas). Availble either as a separate 30cm bi-wiring high-frequency branch or directly integrated into the selected loudspeaker cable.	**300 €**
Harmony	New **interconnect** cable, colour brown, natural sound for all challenges Set interconnect 1 m WBT 110 (Single meter **140 €**)	**500 €**
Harmony HD	Loudspeaker cable, bananas, 10 qmm, shield champagne, sounds powerful and harmonic, single cable m (**40 €**), Set 3m	**600 €**
The "Fast":	Symphonie Line Interconnect Cable (NF). Shielded twice. Very probably by the fastest dielectrics on the world market, doesn't display any cable characteristics, extremly clean electric phase! That means: Be careful, when making use of this cable. The effects could be brutally revealing. You might be able to listen right to the bottom of your sources. (1 m **290 €**)	**800 €**
Reference NEW HD	Interconnect cable, 2x2 sqmm, dielectrics under 1.3. The new dimension of truths, image, body and dynamic. Single meter (**490 €**) Set 1 m, WBT 110 connectors	**1.200 €**
Reference	loudspeaker cable, 18 qmm, the same dielectrics. Makes deep subbass - smooth hights. Single meter (**180 €**) Set 3 m with golden Bananas	**2.300 €**
	Interconnect cable available with WBT silver solder and WBT 1 02/11 0 CU connectors. Loudspeaker cable available standard with my gold plated bananas.	
	Power Line Filter, 12 amps., 3 inputs, completely shielded, 250 x 120 x 100 mm, massive steel chassis. One filter inside, finally it's quiet in your AC-line. Super electric power cable.	**1.700 €**
	Mains Current Converter, 5 inputs (12 amps. each), each with its separate filter, excess voltage protection circuitry, 450 x 100 x 100 mm. Five filters inside. Gives you an idea of where the music was recorded.	**3.500 €**
	Makes you feel true dynamics. **High End electric power cable**, 3x 1,5 sqmm, double shielded, single meter	**250 €**
	Assembled super electric power cable, length 1.5 m incl. connectors. Much better soundstage and harmonics.	**450 €**
NEW	 **High end electric music cable - Result: much better sound stage** **Assembled 1.5 m** **Cable per meter**	 **800 €** **500 €**
RG 7 MK 5	Power amplifier, class A/B, 2 x 150 W sinus at 8 Ohm, 2 x 400 W sinus at 2 Ohm. Completely dual mono circuitry, 130.000 µF capacitance. Frequency range: 2- 200.000 Hz. Damping factor around 800. Slew rate 0.8 J.LS!!! WBT's. Elegant massive steel chassis, "chrome", engraved or aluminium silver chassis. The perfect synthesis (Chrome **900 €**) power and elegance, clean and smooth dynamics. Controls any loudspeaker. The test amplifier of loudspeaker and cable designers. Dick Olsher (Stereophile 2/92): " ... sensational for solid-state designs, was the manner it presented the very heart ofthe midrange." Test Stereoplay 2011: Highlight. Winner Reader's choice 2012. Award 2013	**12.500 €**
RG 7 MK 5 Reference Edition	**Dimensions, deeper, 470 x 320 x 160 mm - very big power supply, 320.000 uF- more class A. Absolute international top class amplifier. Option: symmetrical input (900 €) Audio 1/2013 One golden ear.** **Partly gold plated boards, special impulse power supply and more...** **1000 VA Mumetall transformer Amazing three dimensional sound stage**	**19.000 €**
RG 8	"The source ". A cartridge of pure superlatives at the limit of engineering possibilities. Custom hand made. Weight: 18 grams, stylus redius: 1 mykron, tracking weight: 1,5 g, crosstalk damping: more than 40 dB. Frequency range extension: more than 60.000 Hz, stylus: boron, diametre: 1 mykron. More than 2600 hours of untroubled listening, then very inexpensive stylus exchange. New induction reducing winding technique, extremly precise. Delivers a levei of musical experience as had only been dreamed of before!	
Gold	This is the limit: All windings made of pure gold.Output: 0.35 mV. You can't buy anything comparable. The ultimate purchase. STEREOPHILE (USA, 2/93): "The best system in this galaxis. " Product of the year 1993! STEREO (Germany, 4/95): "The analog revelation." **New Version MK 3 2026**	**6.500 €**
La Musica	New world best cartridge, wood case, gold coil, new technology inside, absolute perfect in and out transient response, output 1.2 mV or as you like - absolute natural big dynamic soundstage, perfect sound body - magic	**on demand**
RG 9 MK 5	"The power package ". Integrated amplifier for the demanding audiophile. Adjustable MM and MC phono stages. High level inputs: CD, Tuner, AUX, Tape. Tape monitor with separate preamplifier output. Logical design and layout. Very strong power supply, loudspeaker protection circuit, WBT binding posts, frontplate: 10 mm massive steel with chrome finish or black-silver, massive buttons, 450 VA transformer with mumetal shielded 2 x 130 W sinus at 8 Ohm. 2 x 200 W sinus at 4 Ohm, stable below 2,5 Ohm. Dimensions: 450 x 100 x 380 mm. Remote Control. Test Image Hifi 11/2013 Perfeet ... pure music ... Chrome (**8.300 €**)	**7.300 €**
RG 9 MK 5	**Reference** with module for special high frequence attacs, Chrome (**9.700 €**)	**8.700 €**
RG 9 MK 5	**Reference NEW HD** Top modell in this single frame... live performance	**9.800 €**
RG 10 MK 5	Integrated amplifier, similar to RG 9, but high grade selection of electronic parts, plus 60.000 µF, plus high grade internal wiring, **separate power supply** for preamplifier stage, 300 VA transformer with MU-metal cup. Headphone output and remote control is standard (for RG 9 and RG 10). Tops RG 9 in every aspect! Chrome (**9.800 €**)	**8.800 €**
RG 10 MK 5 Reference	The same, but with special pre amp reference power module. Perfect loudspeaker control. A dream. Chrome (**11.200 €**)	**10.200 €**
RG 10 M K 5 Reference HD	Special Audio Impulse Capacitors, complete new alignment ... Result: A dream of space and time in music	**11.200 €**

Absolute best buy amplifiers

RG 14 / RG 9 / RG 10 MK 5

Stereoplay 1/2014 Darling of the jury

RG 10 HD Master The same, but with separate master module, **Master 280.000 µF capacity and more specials ... Best of the best ...**	**14.500 €**
Option pair of symmetric high level XLR Inputs for all variations of RG 9 / 10 / 14 / 2	**800 €**
RG 10 HD Master S with very big 500 VA super mu metal transformer, Hifitest 9/2019: High end "highlight"	**17.500 €**

RG 14 Edition MK 5 Integrated amplifire, the little brother of RG 9, same dimensions induding headphone. Option XLR
Color complete black, or 10 mm massive frontplate and buttons silver. 2 x 100 VV Sinus at 8 ohm.
with Phono - **MM / MC, remote control, 400 VA, mumetal shielded transform er and specials.**
Most german magazines reference. Absolute best buy ... (chrome **6.500 €**) **5.500 €**

Version MK 5 S **With super transformer - it's a dream!** **6.800 €**

RG 11 MK 5 The new line of power amplifiers: slim, elegant, powerful. Box black, or frontplate silver, Option complete chrome.
2 x 130 W sinus at 8 Ohm. Damping factor more than 300, frequency range - 150.000 Hz, short slew rate
transform er 300 VA, class A A/B, frontplate black or silver, engraved. Dimensions: 450 x 100 x 365 mm. (chrome **5.600 €**) **4.800 €**

NEW: MK 5 S with Super Mu-Metal transformer **6.000 €**

MONO MK 5 Power amplifier, same as RG 11, with double the power supply specs. 2 x 130 W sinus at 8 Ohm. In bridged
operntion mode capability of four tim es output current. Increased speed. dynomics and overall presence due to
monoaural operation. pair **9.600 €**

NEW: **Mono MK 5** with Super Mu-Metal transformer **12.000 €**

NEW Remote of massive aluminiurn block. graved, weight near i kg. for CD. Tuner. and Amplifler **450 €**

New 2026 Power amplifier RG 7 MK 5 Reference

Hifi Test 05/2025 Reference Class, outstanding musicality Rating: 1+

New CD 2026: for all three digital inputs: RCA / Toslink / USB/B Output: RCA

New CD La Musica Edition with enormous separate power supply (2 Mumetal Transformer 700 VA, extreme precise Clock and other specials) MY PERSONAL TIP 17.000 €

CD Player 24 Bit MK 3 2026

Optimized moduls and others - sounds like a very fine turntable

CD- Player Front load er with remote control. Aranya finish or black/silver chassis. Dimensions: 450 x ·120 mm. Frontpanel: 10 mm,
engraved. Chinch and digital outputs. 24 Bit technique. big Class A output stage,separate power supply with
300 VA mumetal shielded transformer, special: filter frequenc response by 50.000 Hz. Sounds like an excellent
record player: resolution of detnil without nerving o.nd tiring your senses: correct timing. The body of the music, a
deep bass and substance are there, no matter what kind of music you play. And it never muddies the sound. Excellent sound
staging and space. (M. Böde stereo 9/96) writes: " If HiFi were an olympic discipline. Symphonie
Line's first CD-System would win gold." ... "Hardly ever have I heard a CD-system with that extreme ability to capture
the listener's ernotions, to close the gap between the listeners and the music so perfectly."
Test Audio 7/2007: burning passion, moredrive- more energy - more life than others. (chrome **9.400 €**) **8.600 €**

Vibrato The same CD Plo.yer. but complete blo.ck flnish nnd smnller power supply with transform er inside. The name answers
for the sound statement and dates from the Italian belcento opera tradition. Test ARS 2009 ... sound magic.
Best buy (chrome **6.300**) **5.500 €**

Vibrato S with many specials **6.500 €**

"Reference" The same CD Player, extremly selected, big power supply with 100.000 µF, black or silver finish chassis. Specials.
Result: The opera house is transfered completely into your room. Absolutely the best. Special clock module.
Cornpletely into your room. Live music. (chrome (**11.800 €**) **11.000 €**

"Belcanto" Soundstage-breathing-dynamic-magic ... in a new area. Through sound research new technic.
Seperate power supply 280.000 µF, new control function, microsecond precise clock module ..
Absolute the best ... (chrome **15.600 €**) **14.800 €**

NEW **Edition** with double power supply with 2 super mu-metall transformer, 320.00 µF,
frontplate 10 mm and more (chrome **20.600 €**) **19.800 €**

Tubes 2025

Valve Preamplifier MK 3 „The Enlightenment" . Chrome or Alu black/silver chassis. Dimensions: 450 x 120 x 365 mm. 10 mm massive and engraved
front panel. Separate power supply (300 VA) MU-metal-transformer. Phono MM, Tuner, AUX, 2 Tape (with tape to
tape recording possibility). 2 pre-outputs. Each line-input with its separate impedance matching stage. Output 100
Ohm. Frequency range: 2 Hz - 120.000 Hz. No overall feedback. Ceramic valve sockets. Volume remote control.
WBT binding posts. Option: MC-stage with mumetal transformer, impedance matching. **900 €**
Sound: Open, with space around voices and instruments. - Joy at heart! - **19.000 €**

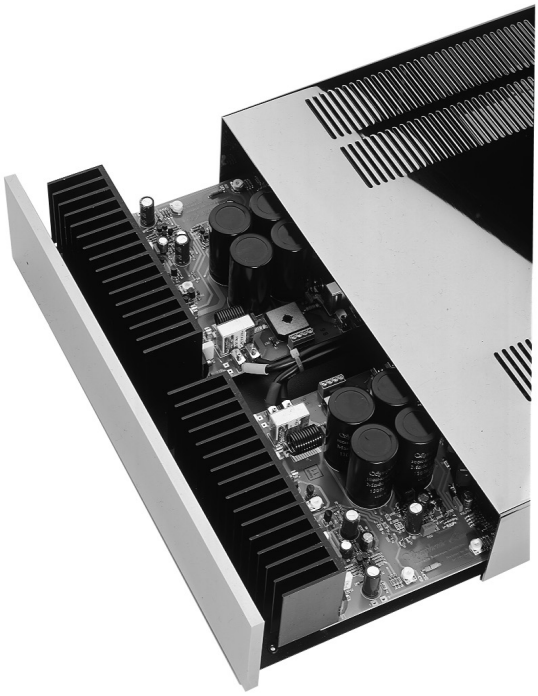
NEW Reference MK 3 HD Opens a door into new sound dimensions. **Turbo power supply located in a seperated casing of the same size like valve amp. faceplate 10 mm**, valve rectifier stage plus 2 MU-metal shielded transformators a 350 VA. Special capacitors in
massive aluminium housing. Phono MM realized by using a sophisticated valve stage. MC equipped with additional high
performance studio quality transformers. One balanced input as well as a set of symmetrical outputs. Massive metal remote
control for volume. Lively and spirited performance. Outstanding precision serving an inspired reproduction. **32.000 €**

High end quality for all multi channel friends

High end quality for all multi channel friends. Various configurations are available. Power amplifier, **Vision one: 3 or 4 channels**. 120 Watts per channel at 8 ohms with 2 toroidal power transformer each 350 VA in a separate box. Power amplifier, **Vision two: 2 channels,** each 120 Watts at 8 ohms with internal 350 VA toroidal transformer.

Frequency range 3-300.000 Hz. Slew rate by 1.2 µsec. Damping factor better 300. Standard color black or frontside silver. Dimensions: 450 x 100 x 380mm.
Front plate 10mm massive. Backside: the best WBT Inputs and the big WBT loudspeaker outputs are gold plated. Surface option chrome. **New: option + full symmetric XLR inputs.**

Vision one: 8.400 € **full symmetric input 9.100 €** **option chrome 900 €**
Vision two: 4.800 € **full symmtetric input 5.600 €** **option chrome 900 €**



You are prepared for future systems, whatever will come. With two Symphonic Line multi channel amplifiers you have 5 or 6 or 7 or 8 channels. Picture Vision 1

gives happiness

Klangquelle Preamplifier - crescendo agent

Fully transistorized and modular constructed main board with extremely short signal paths. Class A operation. Inputs: CD, Tuner, 2 x AUX, excellent phono stage, MM or MC selectable 2 x Tape, 2 x outputs with a very stable amplifier stage. WBT binding posts. Features headphone output and volume remote control. Internal power supply with a 300 VA Mumetal transformer inside, 140.000 µF. **12.000 €**

New: Klangquelle Reference, super turbo power supply 280.000 µF inside, incl. 350 VA super-Mumetal transformer, wonderful phone stage, MM/MC, dynamik expander, absolute world class pre amp. **14.000 €**

The future, which opens up to us and in which we`ll grow into and develop ourselves, expects certain products to keep up with us. These products have to exceed our expectations in HI-FI and High End.

Our new product line exceeds these expectations and the limitations that we came to accept for years as being the standard for truly outstanding High End products. Our products also offer a composure that enables us again to enjoy the music and to experience joy.

Integrated amplifier power source 1 Kraftquelle 1 MK 2

Fully transistorized and modular constructed main board with extremely short signal paths. Pre amplification stage in pure class A operation. Inputs: CD, Tuner, 2 x AUX., excellent phono stage, MM or MC selectable 2 x Tape. Separate pre amp - out stage included. Features headphone otput and volume remote control. WBT binding posts in- and output. It also includes a separate and external power supply with a 430 VA Mumetal transformer. 2 x 140 Watts RMS class A/AB operation at 8 Ohms.
Chrome (+800 €) or black/silver **14.000 €**

Integrated amplifier power source 2 Kraftquelle 2 MK 2

Fully transistorized and modular constructed main board with extremely short signal paths. Inputs: CD, Tuner, 2 x AUX, excellent phono stage with MM or MC selectable 2 x Tape. Separate pre amp - out stage included. features headphone output and volume remote control. It also includes a separate power supply with a 300 VA Mumetal transformer for the pramplification section, and a 350 VA transformer for the amplification section. The pre amplification stage operates in pure class A and features an internal hyper power supply, special selection, and also more capacity. **Very harmonic sound.**
2 x 140 Watts RMS class A/AB operation at 8 Ohms. Chrome (+9 00 €) or black/silver **16.500 €**

Integrated amplifier power station Kraftwerk MK 3

The combination of a world-class pre amp and power amp, disguised as an integrated amplifier.
Fully transistorized and modular constructed main board with extremely short signal paths. Inputs: CD; Tuner, 2 x AUX., excellent phono stage with switchable MM or MC, 2 x Tape. Features headphone output and volume remote control. It is possible to separate the amp and pre amp sections, and to use an additional pre amp-out stage. Separate power supply with a 300 VA Mumetal transformer. The pre amplification stage operates in pure class A and features an internal hyper power supply. In addition, there is a second power supply with 700 VA also mumetal all complete 1000 VA. The two power supplies in standard box. **Very powerful integrated amp.** The circuitry of the Power Stations amplifier stage is identical to the super amp Kraft 250. 320,000 µF, 2 x 180 Watts RMS class A/AB operation at 8 Ohms.
Dimensions of all products: 450 mm x 120 mm x 390 mm (WxHxD) **21.000€**

Kraftwerk MK 3 Reference

Internal big power amplifier like Kraft, power supplies with three super mumetal transformers, complete 1200 VA, 380.000 µF, WBT binding posts in- and output, front plate 10 mm graved and other specials. The two separate power supplies with 10 mm frontplate an button. See picture. **Sound - absolute great**
28.000 €

NEW Kraftwerk MK 3 Reference Edition

Both power supplies in case like Kraftwerk with 10 mm frontplate - with everything that is possible inside ... best of the best, ca. 480.000 µF, 3 special Mumetal transformer 1.400 VA - long individual tuning - opens new Sound horizons. For all friends of integrated amplifiers - here is the maximum - with the power and quality of large pre- and power amplifiers. Truly opens up new worlds of sound. This integrated amp is much better than most big preamp and power amplifier combinations. **38.000 €**

KRAFT 250 MK 3 pure Class A

STEREO	22.000 €
Mono pair	33.000 €
Full symmetric input STEREO	23.000 €
Full symmetric input Mono	34.000 €

2 x 250 W sinus into 8 Ohm. Pure class A Double mono, with two separately shielded power Transformers with a total of 1300 VA 300.000 µF. WBT binding posts in- and output. Aluminium chassis. Front panel: 10 mm. Black finish. New: Front. top plate and backside silver. Dimensions: 600 x 250 x 315 mm. Weight: ca. 45 kg

KRAFT 300 MK 3 pure Class A

Specifications like as Kraft 250. Kraft 300 internal new designed - high regide construction. New super electrolyte power capacitors, 370.000 µF with cascade of capacitors. Result: to create organic sound sphere in time and energy dimensions. Example: you have sound as like the best place in the opera.

STEREO	25.000 €
Mono pair	36.000 €
Full symmetric input STEREO	26.000 €
Full symmetric input Mono	37.000 €

Anniversary Edition MK 3

1.600 VA mumetal transformer and specials
per channel 1.600 VA mumetal transformer and specials

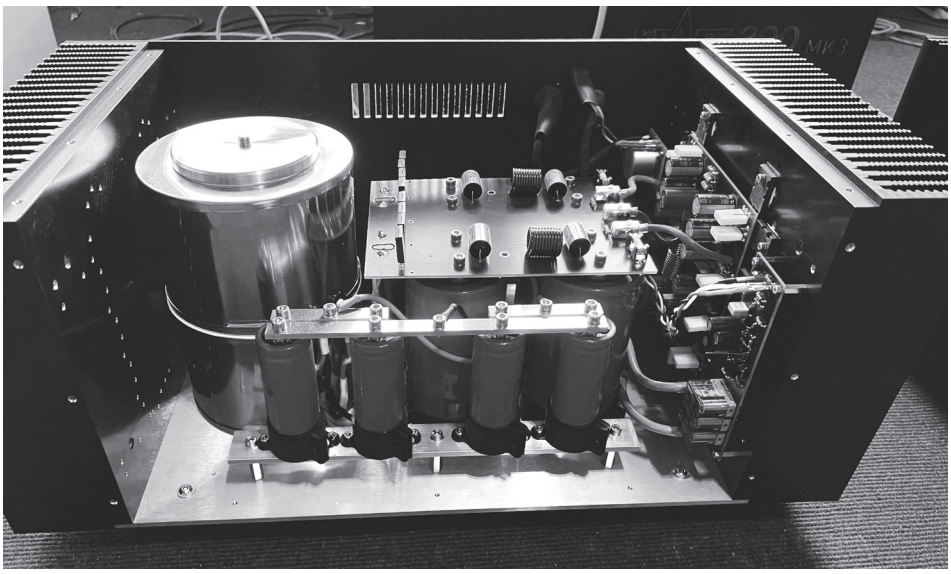
Stereo	35.000 €
Mono pair	52.000 €

Very special and extraordinary individual fine tuning and selection.
With 1.600 VA handcrafted mu-metal transformer. The best possible.
Mono 1.600 VA mumetal transformer and specials per side

Kraft 300 MK 3 Edition

30.000 €

(like Anniversary, without Mu-Metal Trafo)



The power and the glory.

The heart of your world class equipment!

Test Lite magazine 07/2023: The pure side of the force

Best sounding big power amplifier

All Symphonie Line products can be matched. They harmonize musically and aestetically. Often Symphonic Line products are used to complement other brand components in music reproduction systems. For example, the pre- and power amplifiers are often used to bring out the real merits of loudspeakers.
The company's philosophy includes upgrades of older models at a very fair price level. Upgrading instead of exchanging components. Not only our senses also nature deserves to be protected. Rediscover music to find your way out of everyday pressure. We are highly committed to upgrading and refining our product line. However, we never design for a fashion - be it technical or sonic. The result is the production of world class components on different levels of affordability. Our goal of development and research: There is no "Symphonie Line Sound". My only motivation: the reproduction of all the elements of a live concert in my living-room in such a way that the music is correct and captures my senses . I must feel the body of the music; the notes must breathe. Close your eyes. and look into an imaginative opera hall or studio. Let yourself be carried away by the music, and do not care about HiFi-equipment any longer.
New: optional for the most products- cover gold plated.

For all: You can order 100 - 120 or 240 Volt. Tell it to me.

Attributes for all: All soldering using silver tin. Printboards of all products 2 mm massiv.
All power capacitors special made for Symphonie Line.

Prices and information subject to change. Errors and omissions excepted (E&OE).

All our products are single handcrafted with love in Germany. **R. G.**
