

Symphonic Line®

September 1st - 2025

New Retail Pricelist

Handcrafted in Germany

Prices and information
subject to change.
Errors and omissions
excepted (E&OE).

RG 1 MK 5	Stereo power amplifier class AIB, 2 x 130 W sinus at 8 Ohm. Dual mono, damping factor 800, frequency range 2 - 400.000 Hz. Massive steel chassis, finish chrome or aluminium silver or black, WBT binding posts and inputs. Dimensions: 450 x 150 x 200 mm. Our traditional product. Often attempted to copy, but never achieved by competitors. Likes critically loudspeaker impedances. (Chrom 9.400 €)	9.100 €
RG 2 MK 5	Preamplifier, Phono MM/MC selectable, capacity- and impedance matching via plugs. Inputs: CD, Tuner, AUX, Tape. Outputs: Tape monitor and amplifier. Sophisticated circuitry: completely shielded power supply, filter and mu metal shielded 300 VA transformer. Massive front 10 mm black/silver chassis; engraved. Full metal knobs, frontplate 10 mm, massive. Remote included. (Chrome 5.200 €, Option one pair XLR 600 €)	4.400 €
RG 2 MK 5	Reference Edition with turbo power supply inside 280.000 µF, dynamic expander, special selection and more Test Audio 2012 ... the power supply is a shock ... amazing sound ... (Chrome 8.800 €)	8.000 €
NEW	Reference Edition HD with one pair XLR and Super Mu-Metall Transformer	10.000 €
RG 3 MK 5	Preamplifier, Pure class A circuitry, 50.000 µF capacitance. External power supply, 3 W sinus at 8 Ohm output make it possible to run up to 300 feet of interconnect cable. Impedance below 1 Ohm, two pairs of outputs parallel. Frontplate 10 mm, engraved. Finish chrome or black/silver. Completely modular circuitry with optional boards. Basic version: 2 x Aux, CD, Tuner, 2 x Tape. Record out switch, balance poti, 2 pairs of outputs. Dimensions: 450 x 80 x 260 mm. Little separate power supply, remote control. Option Monomodels phono MM or MC (Pair 1.400 €) with impedance and capacitance matching, optional Turbo power supply with 300 VA transformer, 140.000 µF and mains filter, in small black box. (4.100 €) Satisfies the highest demands on tonality, neutrality. WBT binding posts. An open and extended soundstage. In the small line of worlds absolute best pre- amplifiers. Pair symmetric In- or output module (1.000 €) Both next power supplies in separate case with 10 mm Frontplates Turbo Power supply reference with 280.000 µF, Specials, 2 x 300 VA mumetal transformer.	14.000 € 7.500 €
NEW:	Version Reference Edition with two super Mumetal transformers and specials. A dream of soundstage.	9.800 €
RG 4 MK 5	Mono amplifier, class A/B 2 x 150 W sinus at 8 Ohm, 2 x 300 W sinus at 4 Ohm. Extremely stable below 1,5 Ohm load. Completely shielded transformer, 750 VA per channel. 240.000 µF. Extreme frequency range: 1,5 - 300.000 Hz. Delay and loudspeaker protection circuit. WBT's throughout. Finish (Chrome --> chrome, engraved or aluminium silver/ black chassis. Dimensions: 450 x 150 x 200 mm. Truly - a world-class amplifier. Its sound has depth and clarity. Internationally demanded amplifier for demonstration and design purposes. STEREOPLAY: "Fastest impuls in amplifier design today."	17.000 € 15.500 €
RG 5 MK 5	Floor standing two-way-loudspeaker. 24,5 cm Görlisch aluminium bass driver, the fastest dynamic driver in the world. Modular crossover, WBT binding posts. Sensitivity: 91 dB, impedance 8 Ohms, weight: 85 lbs, height: 100 cm. MDF enclosure with beautiful mother of pearl or coloured laquer finishes: handmade according to special order. Very exclusive design in performance, finish and technical quality. Renders a convincing impression of the first wave front. See picture at last side.	17.000 €
RG 5 Reference	Floorstanding, 20 cm Görlisch bass driver with the genius air motion transformer. A wonder of nature sound and vibrations, several months of detail work.	32.000 €

Belcanto MK 2 New step in evolution

Totally new construction, single handcrafted, two ways, wooden cabinet, color as you like.
Same fine acoustic but with much more power for big orchestral sound or as you like .
Ability to adjust the High Tweeter for every kind of room, with a new dimension of air motion transformer.
The soundstage is three-dimensional, you can touch the musician with your hands.
Dimensions L, W, H. : 120 cm, 30 cm, 50 cm, Weight 50 kg.

48.000 €

Magazine LP 01/2015 ... a short audition at studio of master Rolf Gemein shows a fascinating soundstage with truly limitless dynamic capabilities from Belcanto MK 2 loudspeaker.

RG 6	"The turntable" Bearing made of widia/titan, bearing diameter: 16 mm. These separate modules of the RG 6-network include: motor, bearing with 68 lbs audiobasis, stroboscope, mat, power line conditioner, marble plate, table basis. Plate 24 kg. massive aluminium. Any RAL colour laquer, all buttons 24-carat gold finishes. With this ultra precision piece you'll discover the sonic beauty and colourful variety of analogue recordings with complete relaxation. A masterpiece, built for eternity. Simply among the best and most beautiful turntable available. Incl. separate Class A power supply with 300 VA transformer, 140.000 µF.	38.000 €
RG 6 Ref	New drive unit and ultra-precise new bearing and other specials, with second passive drive unit	44.000 €
Power Supply	in separate case with 10 mm frontplate, 2 x 300 VA Mumetal transformer This causes a perfect horizontal guided drive which is absolute the best.	6.000 €
Phonostage	Dimensions: 450 x 100 x 390 mm, black finish, front plate 10 mm massive, black/silver, option chrome	11.000 €
NEW:	phono MM-MC, one or two Inputs, pure class A,	
All MK 4	very big power supply with 300 VA mumetal	
with	shielded transformer, 240.000 µF. Output	
additional	power correct for your AUX input.	
Class A	Extraordinary soundstage and dynamic.	
Output	Truly the best for your cartridge.	
Modules	Option second phono MM-MC input with modules Test Hifi Stars 3/2014 ... Frankyboy life in my room ... a big step for analog records ... amazing (Chrome 700 €)	12.800 €
Reference Edition	The absolute sounding phonostage with power supply in separate case, 10 mm frontplate, 2 x 300 VA Mumetal transformer, ca. 300.000 µF	19.000 €

Harmony	New interconnect cable, colour brown, natural sound for all challenges Set interconnect 1 m WBT 110 (Single meter 90 €)	380 €
Harmony HD	New Loudspeaker cable, 10 qmm, shield champagne, sounds powerful and harmonic, single cable m (40 €), Set 3m	580 €
The "Fast":	Symphonie Line Interconnect Cable (NF). Shielded twice. Very probably the fastest dielectrics on the world market, doesn't display any cable characteristics, extremely clean electric phase! That means: Be careful, when making use of this cable. The effects could be brutally revealing. You might be able to listen right to the bottom of your sources. (1 m 175 €)	550 €
New fast HD	Symphonie Line Loudspeaker Cable, same dielectrics as described above Incredibly precise- solves your bass problems, has practically no recognizable characteristics. 12 qmm separate and single stranded. Single Meter (60 €) Set 3 m, 4 cables with golden bananas	820 €
Reference NEW HD	Interconnect cable, 2x2 sqmm, dielectrics under 1.3. The new dimension of truths, image, body and dynamic. Single meter (390 €) Set 1 m, WBT 110 connectors	980 €
Reference	loudspeaker cable, 18 qmm, the same dielectrics. Makes deep subbass - smooth highs. Single meter (140 €) Set 3 m with golden Bananas Interconnect cable available with WBT silver solder and WBT 1 02/11 0 CU connectors. Loudspeaker cable available standard with my gold plated bananas. Power Line Filter , 12 amps., 3 inputs, completely shielded, 250 x 120 x 100 mm, massive steel chassis. One filter inside, finally it's quiet in your AC-line. Super electric power cable.	1.800 €
	Mains Current Converter , 5 inputs (12 amps. each), each with its separate filter, excess voltage protection circuitry, 450 x 100 x 100 mm. Five filters inside. Gives you an idea of where the music was recorded. Makes you feel true dynamics. High End electric power cable , 3x 1,5 sqmm, double shielded, single meter	1.400 €
	Assembled super electric power cable , length 1.5 m incl. connectors. Much better soundstage and harmonics.	3.200 €
NEW	 High end electric music cable - Result: much better sound stage Assembled 1.5 m Cable per meter	250 € 450 € 800 € 500 €
RG 7 MK 5	Power amplifier, class A/B, 2 x 150 W sinus at 8 Ohm, 2 x 400 W sinus at 2 Ohm. Completely dual mono circuitry, 130.000 µF capacitance. Frequency range: 2- 200.000 Hz. Damping factor around 800. Slew rate 0.8 J.LS!!! WBT's. Elegant massive steel chassis, "chrome", engraved or aluminium silver chassis. The perfect synthesis (Chrome 900 €) power and elegance, clean and smooth dynamics. Controls any loudspeaker. The test amplifier of loudspeaker and cable designers. Dick Olsher (Stereophile 2/92): "... sensational for solid-state designs, was the manner it presented the very heart of the midrange." Test Stereoplay 2011: Highlight. Winner Reader's choice 2012. Award 2013 Dimensions, deeper, 470 x 320 x 160 mm - very big power supply, 320.000 uF- more class A. Absolute international top class amplifier. Option: symmetrical input (800 €) Audio 1/2013 One golden ear.	12.500 €
RG 7 MK 5 Reference	Gold plated boards, full symmetric input, special impulse power supply and more... Amazing three dimensional sound stage	17.000 €
RG 7 MK 5 Ref. Edition		19.000 €
RG 8	"The source ". A cartridge of pure superlatives at the limit of engineering possibilities. Custom hand made. Weight: 18 grams, stylus radius: 1 mykron, tracking weight: 1,5 g, crosstalk damping: more than 40 dB. Frequency range extension: more than 60.000 Hz, stylus: boron, diameter: 1 mykron. More than 2600 hours of untroubled listening, then very inexpensive stylus exchange. New induction reducing winding technique, extremely precise. Delivers a level of musical experience as had only been dreamed of before!	
Gold	This is the limit: All windings made of pure gold. Output: 0.35 mV. You can't buy anything comparable. The ultimate purchase. STEREOPHILE (USA, 2/93): "The best system in this galaxy. " Product of the year 1993! STEREO (Germany, 4/95): "The analog revelation." New Version MK 2 2025	6.500 €
La Musica	New world best cartridge, wood case, gold coil, new technology inside, absolute perfect in and out transient response, output 1.2 mV or as you like - absolute natural big dynamic soundstage, perfect sound body - magic	on demand
RG 9 MK 5	"The power package ". Integrated amplifier for the demanding audiophile. Adjustable MM and MC phono stages. High level inputs: CD, Tuner, AUX, Tape. Tape monitor with separate preamplifier output. Logical design and layout. Very strong power supply, loudspeaker protection circuit, WBT binding posts, frontplate: 10 mm massive steel with chrome finish or black-silver, massive buttons, 450 VA transformer with mumetal shielded 2 x 130 W sinus at 8 Ohm. 2 x 200 W sinus at 4 Ohm, stable below 2,5 Ohm. Dimensions: 450 x 100 x 380 mm. Remote Control. Test Image Hifi 11/2013 Perfekt ... pure music ... Chrome (7.700 €)	6.800 €
RG 9 MK 5 Reference	with module for special high frequency attacks, Chrome (9.100 €)	8.200 €
RG 9 MK 5 Reference NEW HD	Top model in this single frame... live performance	9.200 €
RG 10 MK 5	Integrated amplifier, similar to RG 9, but high grade selection of electronic parts, plus 60.000 µF, plus high grade internal wiring, separate power supply for preamplifier stage, 300 VA transformer with MU-metal cup. Headphone output and remote control is standard (for RG 9 and RG 10). Tops RG 9 in every aspect! Chrome (9.200 €)	8.300 €
RG 10 MK 5 Reference	The same, but with special pre amp reference power module. Perfect loudspeaker control. A dream. Chrome (10.400 €)	9.700 €
RG 10 M K 5 Reference HD	Special Audio Impulse Capacitors, complete new alignment ... Result: A dream of space and time in music	10.700 €
Absolute best buy amplifiers		
RG 14 / RG 9 / RG 10 MK 5	Test Audio 1/2008 ... internal components best of the best, outstanding performance. It rock's, witchcraft power and smooth magic. Test Audio 1/2009 RG 10 Mk4 Reference: test- winner. Winner Readers Choice Audio 2012 Test winner Hörer1ebnis 2012. TestAudio 1/2013 RG 10 Ref. HD Very great amplifier ... Stereoplay 1/2014 Darling of the jury	
RG 10 HD Master	The same, but with separate master module, Master 280.000 µF capacity and more specials ... Best of the best ...	Chrome 14.900 € 14.000 €
Option pair of symmetric high level XLR Inputs for all variations of RG 9 / 10 / 14 / 2		800 €
NEW: RG 10 HD Master S with very big super mu metal transformer, Hifitest 9/2019: High end highlight		17.000 €

RG 14 Edition MK 5	Integrated amplifire, the little brother of RG 9, same dimensions including headphone. Option XLR Color complete black, or 10 mm massive frontplate and buttons silver. 2 x 100 VV Sinus at 8 ohm. with Phono - MM / MC, remote control, 400 VA, mumetal shielded transformer and specials. Most german magazines reference. Absolute best buy ... (chrome 6.000 €)	5.300 €
Version MK5 S	With super transformer - it's a dream!	6.500 €
RG 11 MK 5	The new line of power amplifiers: slim, elegant, powerful. Box black, or frontplate silver, Option complete chrome. 2 x 130 W sinus at 8 Ohm. Damping factor more than 300, frequency range - 300.000 Hz, short slew rate transform er 300 VA, class A A/B, frontplate black or silver, engraved. Dimensions: 450 x 100 x 365 mm. (chrome 5.200 €)	4.400 €
NEW: MK 5 S	with Super Mu-Metal transformer	5.600 €
MONO MK 5	Power amplifier, same as RG 11, with double the power supply specs. 2 x 130 W sinus at 8 Ohm. In bridged operntion mode capability of four tim es output current. Increased speed. dynomics and overall presence due to monoaural operation. (mono pair chrome 11.400 €)	8.800 €
NEW:	Mono MK 5 with Super Mu-Metal transformer	11.200 €
NEW	Remote of massive aluminium block. graved, weight near i kg. for CD. Tuner. and Amplifler	450 €

Tubes 2025

Valve Preamplifier MK 3	„The Enlightenment“ . Chrome or Alu black/silver chassis. Dimensions: 450 x 120 x 365 mm. 10 mm massive and engraved front panel. Separate power supply (300 VA) MU-metal-transformer. Phono MM, Tuner, AUX, 2 Tape (with tape to tape recording possibility). 2 pre-outputs. Each line-input with its separate impedance matching stage. Output 100 Ohm. Frequency range: 2 Hz - 120.000 Hz. No overall feedback. Ceramic valve sockets. Volume remote control. WBT binding posts. Option: MC-stage with mumetal transformer, impedance matching. Sound: Open, with space around voices and instruments. - Joy at heart! -	800 €
NEW Reference MK 3 HD	Opens a door into new sound dimensions. Turbo power supply located in a seperated casing of the same size like valve amp. faceplate 10 mm , valve rectifier stage plus 2 MU-metal shielded transformers a 350 VA. Special capacitors in massive aluminium housing. Phono MM realized by using a sophisticated valve stage. MC equipped with additional high performance studio quality transformers. One balanced input as well as a set of symmetrical outputs. Massive metal remote control for volume. Lively and spirited performance. Outstanding precision serving an inspired reproduction.	32.000 €

High end quality for all multi channel friends

High end quality for all multi channel friends. Various configurations are available. Power amplifier, **Vision one: 3 or 4 channels**. 120 Watts per channel at 8 ohms with 2 toroidal power transformer each 350 VA in a separate box. Power amplifier, **Vision two: 2 channels**, each 120 Watts at 8 ohms with internal 350 VA toroidal transformer.

Frequency range 3-300.000 Hz. Slew rate by 1.2 μ sec. Damping factor better 300. Standard color black or frontside silver. Dimensions: 450 x 100 x 380mm. Front plate 10mm massive. Backside: the best WBT Inputs and the big WBT loudspeaker outputs are gold plated. Surface option chrome. **New: option + full symmetric XLR inputs.**

Vision one: 8.000 € **full symmetric input 8.700 €** **option chrome 800 €**

Klangquelle Preamplifier - crescendo agent

Fully transistorized and modular constructed main board with extremely short signal paths. Class A operation. Inputs: CD, Tuner, 2 x AUX, excellent phono stage, MM or MC selectable 2 x Tape, 2 x outputs with a very stable amplifier stage. WBT binding posts. Features headphone output and volume remote control. Internal power supply with a 300 VA Mumetal transformer inside, 140.000 μ F. **12.000 €**

New: Klangquelle Reference, super turbo power supply 280.000 μ F inside, incl. 350 VA super-Mumetal transformer, wonderful phone stage, MM/MC, dynamik expander, absolute world class pre amp. **14.000 €**

The future, which opens up to us and in which we'll grow into and develop ourselves, expects certain products to keep up with us. These products have to exceed our expectations in HI-FI and High End.

Our new product line exceeds these expectations and the limitations that we came to accept for years as being the standard for truly outstanding High End products. Our products also offer a composure that enables us again to enjoy the music and to experience joy.

Integrated amplifier power source 1

Kraftquelle 1 MK 2

Fully transistorized and modular constructed main board with extremely short signal paths. Pre amplification stage in pure class A operation. Inputs: CD, Tuner, 2 x AUX., excellent phono stage, MM or MC selectable 2 x Tape. Separate pre amp - out stage included. Features headphone output and volume remote control. WBT binding posts in- and output. It also includes a separate and external power supply with a 430 VA Mumetal transformer. 2 x 140 Watts RMS class A/AB operation at 8 Ohms.

Chrome (+800 €) or black/silver

13.600 €

Integrated amplifier power source 2

Kraftquelle 2 MK 2

Fully transistorized and modular constructed main board with extremely short signal paths. Inputs: CD, Tuner, 2 x AUX, excellent phono stage with MM or MC selectable 2 x Tape. Separate pre amp - out stage included. features headphone output and volume remote control. It also includes a separate power supply with a 300 VA Mumetal transformer for the pramplification section, and a 350 VA transformer for the amplification section. The pre amplification stage operates in pure class A and features an internal hyper power supply, special selection, and also more capacity.

Very harmonic sound.

2 x 140 Watts RMS class A/AB operation at 8 Ohms. Chrome (+800 €) or black/silver

15.800 €

Integrated amplifier power station

Kraftwerk MK 3

The combination of a world-class pre amp and power amp, disguised as an integrated amplifier. Fully transistorized and modular constructed main board with extremely short signal paths. Inputs: CD; Tuner, 2 x AUX., excellent phono stage with switchable MM or MC, 2 x Tape. Features headphone output and volume remote control. It is possible to separate the amp and pre amp sections, and to use an additional pre amp-out stage. Separate power supply with a 300 VA Mumetal transformer. The pre amplification stage operates in pure class A and features an internal hyper power supply. In addition, there is a second power supply with 700 VA also mumetal all complete 1000 VA. The two power supplies in standard box. **Very powerful integrated amp.** The circuitry of the Power Stations amplifier stage is identical to the super amp Kraft 250. 320,000 μ F, 2 x 180 Watts RMS class A/AB operation at 8 Ohms. Dimensions of all products: 450 mm x 120 mm x 390 mm (WxHxD)

21.000 €

Kraftwerk

MK 3

Reference

Internal big power amplifier like Kraft, power supplies with three super mumetal transformers, complete 1200 VA, 380.000 μ F, WBT binding posts in- and output, front plate 10 mm graved and other specials. The two separate power supplies with 10 mm frontplate an button. See picture. **Sound - absolute great**

Best sounding big power amplifier

All Symphonie Line products can be matched. They harmonize musically and aesthetically. Often Symphonic Line products are used to complement other brand components in music reproduction systems. For example, the pre- and power amplifiers are often used to bring out the real merits of loudspeakers.

The company's philosophy includes upgrades of older models at a very fair price level. Upgrading instead of exchanging components. Not only our senses also nature deserves to be protected. Rediscover music to find your way out of everyday pressure. We are highly committed to upgrading and refining our product line. However, we never design for a fashion - be it technical or sonic. The result is the production of world class components on different levels of affordability. Our goal of development and research: There is no "Symphonie Line Sound". My only motivation: the reproduction of all the elements of a live concert in my living-room in such a way that the music is correct and captures my senses. I must feel the body of the music; the notes must breathe. Close your eyes. and look into an imaginative opera hall or studio. Let yourself be carried away by the music, and do not care about HiFi-equipment any longer.

New: optional for the most products- cover gold plated.

For all: You can order 100 - 120 or 240 Volt. Tell it to me.

Attributes All soldering using silver tin. Printboards of all products 2 mm massiv.
for all: All power capacitors special made for Symphonie Line.

Prices and information subject to change. Errors and omissions excepted (E&OE).

All our products are single handcrafted with love in Germany.

R. G.
